PROFESSIONAL SUMMARY

Results-driven Full-Stack Developer and UI/UX Designer with hands-on experience building scalable web applications, intuitive user interfaces, and security-focused platforms. Proficient across the full product lifecycle from wireframing and high-fidelity prototyping in Figma to backend API development, database design, and deployment. Experienced with modern frameworks including React.js, Node.js, Express, and FastAPI, with additional expertise in blockchain development and cybersecurity tooling. Adept at working in fast-paced environments, collaborating with cross-functional teams, and delivering polished, production-ready digital products. Passionate about using technology to solve real-world problems and committed to continuous learning and growth.

EDUCATION

Babcock University, Ilishan-Remo, Ogun State, Nigeria
Bachelor of Science – Computer Science; CGPA: 4.42/5.00

Sep. 2022 – Jul. 2026

SKILLS SUMMARY

Languages & Markup: HTML5, CSS3, JavaScript (ES6+), Python, Solidity
Frameworks & Libraries: React.js, Tailwind CSS, Bootstrap, Node.js, Express.js, FastAPI
Databases: MongoDB, SQLite, Database Schema Design, CRUD Operations
Design: UI/UX Design, Wireframing, Low-Fidelity & High-Fidelity Prototyping, Responsive Web Design, Figma, Design Systems, Design Handoff
UX Research: User Research, User Flows, Information Architecture, Usability Testing, Personas, Journey Maps, Accessibility
Frontend: Component Architecture, State Management, Accessibility, Performance Optimization, Responsive Design, REST APIs, Docker
Backend: REST API Development, Authentication, Deployment, Error Handling, API Testing with Postman, API Integration
Tools & Platforms: Git, GitHub, Chrome DevTools, Jira, Slack, Trello, Postman, Google Meet, Microsoft Office Suite
Cybersecurity: Threat Hunting, SOC Dashboard, Attack Graph Analysis, Log Ingestion & Correlation, Incident Reporting
Blockchain: Smart Contracts (Solidity), Hardhat, MetaMask, On-chain Verification, JWT Authentication
AI & Dev Tools: ChatGPT, GitHub Copilot, Cursor, AI-Assisted Development
Soft Skills: Problem Solving, Technical Research, Team Collaboration, Communication, Time Management

WORK EXPERIENCE

UI/UX Design Intern | CWG PLC, Lagos, Nigeria

Jan. 2025 – Feb. 2026

- Designed responsive user interfaces and wireframes for digital platforms and internal tools.
- Collaborated with developers and product teams to improve usability and accessibility across applications.
- Created interactive prototypes and user-centered design concepts using Figma.
- Learned Python fundamentals and applied programming concepts within software development workflows.
- Worked with design systems and frontend implementation best practices.

Software Development Intern (I.T) | 720Degree Innovation Hub, Abeokuta, Ogun State

Jun. 2024 – Sept. 2024

- Supported frontend software development training and practical project-building sessions.
- Facilitated study groups, interactive learning sessions, and assignment reviews.
- Developed frontend projects using HTML, CSS, JavaScript, React, Bootstrap, and Git.
- Won 3× Best Project award at Weekly Pitching Presentations.

PROJECTS

SentinelX | Python, React, FastAPI, SQLite

2025

- Built an autonomous SOC threat-hunting platform with AI investigation assistant, attack graph visualization, and incident reporting workflow.
- Implemented log ingestion pipeline with detection for recon, brute force, credential stuffing, lateral movement, privilege escalation, malware indicators, and data exfiltration.

- Generated PDF incident reports and automatic incident timelines with graph reconstruction.
- Deployed via Docker Compose with SQLite persistence and streaming log search.

Blockchain Voting | React, Vite, Express, Hardhat, MongoDB, Solidity **2025**

- Developed a decentralized, tamper-proof voting platform with on-chain vote verification and off-chain result storage.
- Implemented JWT authentication, MetaMask integration, and a Solidity smart contract deployed on Hardhat local blockchain.
- Built voter registration, ballot management, and cryptographic receipt verification flow.

InternTrack | React, Node.js, Express, MongoDB, Tailwind CSS **2024 – 2025**

- Full-stack internship and job application tracker with dashboard analytics, interview prep tools, and document management.
- Features include application timeline tracking, follow-up reminders, Cloudinary file upload, and JWT refresh-token authentication.
- Designed mobile-responsive UI with skeleton loaders, toast notifications, and first-time user onboarding.

Gift Store UI/UX | Figma **2024**

- Designed a complete e-commerce UI/UX case study covering user personas, wireframes, and interactive high-fidelity prototypes.
- Applied a cohesive dark futuristic-African aesthetic with a structured color system and typography hierarchy.

TRAINING & CERTIFICATIONS

Python Programming Training **2025**

CWG Plc, Lagos, Nigeria

UI/UX Design Training **2025**

CWG Plc, Lagos, Nigeria

Software Development – Front-End **Sept. 2024**

720Degree Innovation Hub, Ogun State, Nigeria

LANGUAGES

English, French, Yoruba – Fluent (Speaking & Writing)

HOBBIES & INTERESTS

Design & Creativity: Exploring UI/UX trends, creating personal design concepts, studying brand identity systems, and following design communities on Dribbble and Behance

Technology: Building side projects, experimenting with AI tools, exploring cybersecurity research, and staying updated on emerging web technologies and frameworks

Open Source & Learning: Contributing to personal GitHub projects, completing online courses, reading technical documentation, and participating in developer communities

Gaming & Interactive Media: Playing strategy and role-playing games, studying game UI/UX design, and exploring interactive storytelling and game mechanics

Reading & Writing: Reading books on product design, entrepreneurship, and personal development; journaling ideas and writing about technology and innovation

Music: Listening to a wide range of genres including Afrobeats, R&B, and lo-fi; using music as creative inspiration during design and development sessions

Travel & Culture: Exploring new places and cultures, drawing design inspiration from diverse environments, architecture, and art forms across Nigeria and beyond

Fitness & Wellness: Staying active through walks and light exercise routines, practicing mindfulness, and maintaining a healthy work-life balance
